JUNE 2007

The Magazine for TV and FM DXers

MAY E-SKIP AN EARLY START TO THE SEASON! Details Inside

THE WORLDWIDE TV-FM DX ASSOCIATION

Serving the UHF-VHF Enthusiast

THE VHF-UHF DIGEST IS THE OFFICIAL PUBLICATION OF THE WORLDWIDE TV-FM DX ASSOCIATION DEDICATED TO THE OBSERVATION AND STUDY OF THE PROPAGATION OF LONG DISTANCE TELEVISION AND FM BROADCASTING SIGNALS AT VHF AND UHF. WTFDA IS GOVERNED BY A BOARD OF DIRECTORS: DOUG SMITH, GREG CONIGLIO, BRUCE HALL, KEITH McGINNIS AND MIKE BUGAJ.

Editor and publisher: Mike Bugaj
Treasurer: Keith McGinnis wtfda.org Webmaster: Tim McVey
wtfda.info Site Administrator: Chris Cervantez
Editorial Staff: Dave Williams, Jeff Kruszka, Keith McGinnis,
Fred Nordquist, Nick Langan, Doug Smith,
Chris Kadlec, Peter Baskind and John Zondlo,
Our website: www.wtfda.org; Our forums: www.wtfda.info

JUNE 2007

Finally! For those of you online with an email address, we now offer a quick, convenient and secure way to join or renew your membership in the WTFDA from our page at:

http://fmdx.usclargo.com/join.html

Dues are \$25 if paid to our Paypal account. But of course you can always renew by check or money order for the usual price of just \$24. Either way, it's still a bargain!

VUDS ON A CD!

Every VUD from Jan 1980 to December 1989 is on this disk. You'll need Adobe Reader to read them. Why have a

box of old VUDs taking up space when you can have this. It's yours for just \$8.00 per disk. Send your check or money order for \$8.00 to WTFDA, P.O. 501, Somersville, CT 06072. Make it payable to WTFDA.

Dave left his column on the wrong computer, so Western TVDX will return next month. Peter should also be back with more 50mhz goodies.

And now... eVUDS ON CD!

All eVUDs from 09/01 through 12/05 are on this disc (except 8/02 which was not published). Follow the changes from day one to the present form. You can have it for just \$6.00 (\$5.00 plus a dollar shipping).

Use the same address as for VUDs on CD shown on the opposite column.

Frank Aden Hosts the 1st NRC/WTFDA Convention!

Friday, August 31, 2007 through Sunday, September 2, 2007 At the Rodeway Inn, 1115 North Curtis Road, Boise, ID 83706 (208) 376-2700

The First ever Combined National Radio Club/WTFDA Convention!
Registration for all is \$15, spouses are \$10 and kids under 14 are free. The cutoff date for registering with the club(s) is August 15, 2007; with the hotel, August 20, 2007.
PLEASE SEND YOUR REGISTRATION TO EITHER CLUB

THE FUN HAS BEGUN

From looking at the posts on the WTFDA's tvfmdx email list, we can see that the 2007 E skip season began earlier than usual in many places in North America this year. Skip hit the FM band with widespread openings on May 6,9,11,22 and 25. I've seen reports from much of the United States. This early start is very encouraging, so if you haven't started checking, this is a good time to begin.

MEMBERS AND MORE

This month we welcome **Michael Glass** to the WTFDA. Michael lives in Indianapolis and joined using Paypal. There can't be an easier way to join the WTFDA. If you've never used Paypal, try it!

Renewals were received from the period 4/16 to 5/14 from the following members: Eric Fader (NY), John Hanna (IL), Nick Langan (NJ), Fred Nordquist (SC), Ken Onyschuk (IL), Fritze Prentice (AR), Gary Hickerson (OK), CT Day (RI), Roger Gravelle (ON), Gray Fulk (NC), Sheryl Paszkiewicz (WI), Neil Griffin (FL), William Eckberg (IL), George Mileon (MA), Andy Bolin (IL), Jerry Bond (NY), Eric Bueneman (MO), Randy Zerr (FL), Rob Ross (ON), Dave Williams (OR), Dan Oetting (MD), Dave Sinclair (BC) and John Marx (WI). Thank you all for supporting the WTFDA and helping to keep the WTFDA alive and vibrant.

I have more renewals and some new WTFDA members (yes, plural) in my stack of stuff here, but we will get to those next month.

Here's an interesting letter from veteran TV Dxer Bill Draeb: "I'm surprised you're preaching "gloom and doom" when all the lowband stations in the "lower 48" decide to pull the plug on their analog stations. For someone who has been plagued by WBAY-2 for the last 54 years (much of that time 24/7), it will be interesting to see what else is there instead of logging WEDU-3 for the umpteenth time. So, bring on Cuba, South America, Mexico, Central America and whatever else gets covered up by stations in the 1000 mile range. I'll be waiting for that 2Es, F2 or TE opening with bated breath. But I suppose if you prefer quantity to stations versus quality, then you'll be disappointed."

Bill, I see your point. You fellows in the midwest will no doubt have your share of TV

skip openings when the analogs go off the air. Right off the top of my head I think of Jeff Kadet in IL, who always has his share of Mexicans and Puerto Rico via e-skip in the summertime.

But then you can consider the DXers farther north, where receiving a Mexican via Es is a rarity. I think you will need to have some amount of "quantity" just to people interested. If a DXer only "sees" Es on his television only two or three times in a season, will that be enough to keep him interested in the hobby, even if the skip he sees is two or three hop from somewhere in Central or South America? I don't know the answer. We will have to find out.

Bill Eckberg sends this note along with his renewal: "The tower has been cranked down for a year. Ch2-6 skip is about all that is left. TV bands are loaded here with analog and digital signals. Perhaps things will improve in 2009." Well, Bill, we can always hope. And if we all hang in here for a few short months, we will all find out the answer together. Perhaps things will improve for TV DXing.

PHASER NEWS!

News from **Andy Bolin**: "Just a note to let you all know the Radio Shack 15-678 attenuator has been discontinued. For the moment, you may be able to find old stock 15-678s at your local RS. Otherwise, for a small quantity, check with me or try part number 15-578 or 15-678 on Ebay.

If you have old scratchy sounding attenuators, KEEP THEM! They can be modified with a military grade control for a lifetime of service.

As for FM phasers, as long as I find parts at hamfests, I'll build them. But that source is shrinking by the year.

THE POSTAGE INCREASE

The way the new rates work, it should cost us a few pennies LESS to send out a 2 oz VUD in an envelope. That's the good news. The 3 oz rate is also a bit less, but another new, higher rate begins at 3.5 oz instead of 4 oz, so VUDs over 3.5 oz will cost us 92¢ to mail. Where once I knew how many pages it took to jump a VUD from 2 to 3 oz., I'll now have to learn how many pages it will take to bump the VUD over 3.5 oz. More fun. See you all next month.

The FCC has approved the applications of 32 stations to not build out their interim DTV facilities. These stations will flash-cut to DTV operation on their permanent DTV channel.

In most cases, these stations are in small markets. In many cases, the stations' interim DTV channels are outside core. (above channel 51) 25 of the stations are "satellites" – stations that relay some other station – a category of operation that was singled out as eligible for flash-cutting.

The stations in question:

| Station | City | Α | В |
|---------|--------------------------|----|----|
| KVTH-26 | Hot Springs, Ark. | 14 | 26 |
| KVTJ-48 | Jonesboro, Ark. | 49 | 48 |

A: Interim DTV channel (which will go unused)

B: Permanent DTV channel

At the same time, the Commission launched their 3rd Review of the DTV Transition. They propose these actions: (among others)

- Limit future extensions of time to build DTV facilities.
- Offer expedited processing of applications for operation on a station's post-transition channel.
- Consider allowing reduced analog power when necessary to facilitate building of posttransition DTV facilities.
- Consider allowing stations to cease analog operation altogether, before transition, to facilitate building of post-transition DTV facilities.
- Consider allowing stations to switch early, ceasing analog operations before Transition Day and switching to DTV-only operation.
- Require stations to file a form by December 1st detailing the station's digital progress and a plan for completing transition.
- Require stations whose permanent DTV facilities are on a different channel from their interim operation to complete construction by February 17, 2009. (Transition Day)
- Refuse applications to increase power on permanent DTV assignments until all initial facilities have been built.

These points are <u>not</u> final; they're proposals put out for public comment. I suspect they'll be adopted pretty much intact though.

One thing to note here is that, contrary to what I'd expected, stations <u>will</u> be expected to vacate their interim DTV channels immediately on Transition Day.

This will cause some *interesting* logistical issues for many stations. Those whose permanent DTV channels are different from their interim assignments will have to build a DTV facility on the new channel, but cannot test it on the air. (they'd better hope it works on February 17th!)

(a quick scan of the FCC document – it's HUGE – suggests stations <u>will</u> be allowed to test their permanent DTV facilities in advance, but it will often require careful cooperation of competing stations – which will be required to go off the air, or at least accept serious interference, for such testing to proceed.)

Another order disposed of 145 applications for additional time to complete DTV construction. Most were granted:

- WABC, WNBC, WNJU, and WNYE in New York cited the 9/11 attack as grounds for extension.
- 29 extensions were required by delays in the Commission's own actions.
- Hurricanes were cited by WPAN, KVHP, WGNO, and WSTE. The latter station was not directly affected by the storms, but crews scheduled to install WSTE's DTV equipment were diverted to New Orleans.

- Five Denver stations had problems (to say the least!) obtaining local approval for their antennas at their existing analog site. Congress finally stepped in, overruling local zoning authorities. KPAZ in Phoenix also cited problems with local approvals.
- Twelve stations cited unexpected technical and mechanical issues.
- Nine stations had problems acquiring previously-ordered equipment on time.
- Five stations cited problems with contractors or weather.
- 70 stations cited financial issues. One (KNLC St. Louis) recently sold co-owned KNLJ; this sale may have raised enough cash to complete DTV construction in St. Louis.
- Finally, two stations cited other problems.

Two California stations – KCET and KICU- were denied extensions of their permits to increase DTV power to "maximized" facilities with greater coverage than their analog signals. However, these stations will not be sanctioned as they did build DTV facilities that "replicate" their analog coverage.

Three stations were "denied" extensions outright. Since KECY and WTVA's interim DTV facilities are on different channels from their permanent operation – and the FCC has de-emphasized construction of interim operations – the stations will simply be formally admonished and expected to complete construction within 30 days of adoption of this report.

The third station, KJUD in Juneau, Alaska, told the Commission it couldn't complete its DTV facility until co-owned KIMO Anchorage did so. However, other fillings indicate KIMO-DT was complete in July 2006. KJUD's interim DTV channel is the same as its permanent assignment. The Commission has extended KJUD-DT's permit for six months anyway, but formally admonished the station and imposed extra reporting requirements.

Another report shows the status of the transition:

| Markets | # Stns | On Air | Full Pwr | STA |
|-----------|-----------|--------|-------------|-----|
| All | 1,723 | 1,603 | 1,215 | 388 |
| Top 10 | 40 | 40 | 38 | 2 |
| Top 30 | 119 | 119 | 110 | 9 |
| Non-comm. | 373 | 348 | | |

21 stations do not have a DTV permit or license at this point.

With regard to viewers, the report states that there are roughly 18,700,000 homes that receive only over-the-air analog TV. (another 1,300,000 receive only over-the-air TV but have digital capability) These 18.7 million homes have 44.2 million analog sets. Another 23.5 million TV sets in homes that have cable/satellite are not connected to the cable/satellite service.

Whew. (I hope y'all bought stock in the Hammermill Paper Company before I printed all this stuff...)

Good DX!

WESTERN TV

DAVE WILLIAMS 3525 SW Timber Ave REDMOND, OR 97756 beansdad@bendcable.com

(541) 420-4704

The season has gotten off to an excellent start here with FM Es openings to AZ, CO, SD, BC, and SK and neighboring states/provinces so far, the highlight being more lowpowered Canadian Es (91.7 CITT Saskatoon, 50 w, 98.1 CFMQ Hudson Bay SK, 38 w, and a cleanup of stations in the Ft St John/Dawson Creek area of northern BC). No new loggings on TV, but approximately 8 days of decent TV skip so far.

Keep those Western DX reports coming! Mine was the only one this month and with my laptop "out", I had nothing to report. Dave

The Editor's Note

Well, what do you know, us DX-starved Easterners got rewarded in May, as the 2007 E-Skip season started fast and furiously. Many of the past years have featured late starts to widespread activity, some as late as June, so to see reports coming in as early as the first week of the month was great. The middle of the month's E-Skip seemed to retreat into a null, but things have gotten active again in the last few weeks. Let's hope it's a sign of DX to come!

And a reminder that this column isn't possible without...you! As the E-Skip commences, no matter how long or short your logs may be, feel free to send them into me. I and our readers would love to see what you are logging!

1736 WEDU

Says Robert: "A mixed bag as winter finally gave way to spring. The lake tropo duct to Buffalo that was very frequent last spring has been much rarer this year. Es seems to have gotten a nice early start, and the 10 May opening was quite persistent for a May opening (KCWX was still in at 0100 the next day), and a ham on 10m in SC stated he had worked the opening on 2m. Up here, however, I have yet to see the MUF hit channel 6 (if it hits 5, I usually can't tell, with WLMB-DT only 24 miles away) High MUF is hard to come by here, in 7 Es seasons, I've only logged 4 stations by Es on channel 6. Amusing to see the old WOAI call sign back on San Antonio 4. I must have confused you all with my past tentative loggings of KMOL."

TELEVISION'S PIRATES: HIDING BEHIND YOUR PICTURE TUBE

BY BOB COOPER

What is a Television Pirate?

By Oxford definition, a pirate is "a person who infringes another's copyright or other business rights" and/or "someone who broadcasts without official authorization." Television programming carries copyright, television stations travel a years-long pathway seeking "official authorization" before broadcasting. Alas, not every television station has waited for, nor even sought, authorization, and it goes without saying, contacting those who's copyright might be violated by their transmissions. Many figures in recent history (Winston Churchill) met our definition.

Tens of thousand have been driven by their intense desire to have, for their own, access to television. Cable TV began as piracy. Satellite TV was driven by rampant piracy. And now the Internet is spooked by those who would "broadcast" with authorization. This is their story.

ORDER YOUR 928 PAGE COPY FROM BOB RIGHT NOW!

Send your check or money order for \$20 (payable to WTFDA) to WTFDA, P.O. Box 501, Somersville, CT 06072. <u>US ORDERS ONLY</u>.

Paypal order are also accepted. Send \$21.50 (to cover Paypal fees, etc.) To mbugaj@snet.net.

Folks, last month was my first month without any photos to print (ever, I think). So if you have something recent you'd like to contribute, please send it to me! Thanks - jk

Jim's Spring Antenna Project Jim Renfrew, Scott Fybush, Rick Lucas and Jerry Bond Do An Install at Jim's House in May 2007

Fybush, Lucas and Bond getting FM and UHF antennas ready for Jim's roof. (5/12/07)

Renfrew, Lucas and Bond pass it on! Note: Fybush on the ground during entire installation.

Bonding with chimney that will soon be stopped by antenna placement.

Renfrew and Lucas demonstrating high-altitude acrobatics..

Look Ma! No Hands!!
